DOMESTIC ECONOMY.

FOR AN ENCELLENT INDIAN PUD-DING .- Take a pint and a half of sweet milk: out it on the fire: when it boils, stir in a pint of meal; then take it off, put in a tea-cupful of sour cream, with half a tea-spoonful of soda, (saleratus will do:) beat three eggs; when it is cool enough not to cook the eggs, put them in; put in a handful of ripe fruit. (currants, cherries, plums, or something else;) then stir in flour enough for a thick batter, and bake it three quarters of an hour, either put in three table-spoonfu's of augur, or est with sweetened cream-the former is pre-

MINUTE PUDDING.-If you have some stale bread on hand, you can make a cheap, quick pudding before breakfast, thus -Put a pint of sweet milk in the frying-pan; cut the bread up in it, put in a table-spoonful of sugar, and a tea-spoonful of allspice; a little nutmeg will help it, let it boil; as soon as the bread is soft, stir in an egg, and it is done. Try it, and if you don't find it excellent tell me so.

A very Quick Dinner, and a good one, tos-for instance, on washing-days, when the women don't want to be bothered-is to put a quart of sweet milk on the fire; mix two or three handfurs of flour in a dish, with milk enough to wet it as you would for starch; make it smooth with a spoon, so that there will be no lumps in it; when the milk boils. stir this in; beat three eggs, and stir them in, and two table-spoonfuls of sugar, and it

2 oz. cinnamon, and mix well together. Apply it to the meat before chopping.

A CURE FOR PRICKLY HEAT AND Hives. - Take elder blows and make tea or it. This is excellent for children. Now is the time to dry some, and lay away for use

Pot Cheese.-There is another dish when one is scarce of sauce, that we use a great deal. Take a crock or two of thick milk; put it on the stove, stir it once in a while; let it get milk-warm, and no warmer, take it off, and pour it into a thin bag; hang it up five or six hours, so that the whey will all run off; then take a bowl.ul, and put on enough sour cream to make it quite soft, and it is good, and certainly cheap.

Ashes in Salt for Stock.

New as the grazing season is coming on will be found errriceable to mix clean wood ashes with salt for stock, as a preventative of murrain, &c. It gives a healthful tone to the intestines and throws off disease.

Chapped Hands.

Mix a quarter of a pound of unsalted hog's lard, which should be washed first in water then in rose water, with the yolk of a new laid egg and a large spoonful of honey -Add to this as much fine natural or almond paste as will make the whole into a paste, and apply this after washing the hands.

QUICK WORK -It was once the fashion to wear coats, the material for which had not long before been on the back of the sheep. For rapidity of work in this way, I know of nothing that can compete with the achievement of Coxter, Greenham Mills, near Newbury He had a couple of South Down sheep at his factory, at five o'clock in the morning, the wool thus projuced was put through the usual process; and by quarter past six in the evening, it resulted in a complete damson-colored coat, which was worn at an evening party, by Sir John Throckmorton. A wager party, by Sir John Throckmorton. A wager for a thousand guineas was won by this feat. with three quarters of an hour to spare. The sheep were roasted whole, and devoured at a splendid banquet. In one day they afforded comfort to the inward and outer n.an. - Habits and Man.

THE GREAT Dodge - The London corres pondent of the Tribune time slipmes to the Pierce Minister to the Court of Medrid, sent out to fill the place vacated by Souie: The greatest of all the Doc.es. Augustus

Caesar Dodge, has paid a very short visit to London; he left almost immediately after his arrival for Paris, where the Expedition would have been incomplete without his presence. He exhibited himself in the American department as a specimen of an American Diplomatist, in order to show that the progressive spirit of the Democratic Adminstration of Gen. Pierce has fully seized the celebrated words of Chancellor Oxensteinse -the great Swedish Statesman of the Seventeenth Century-to his son, "See my boy; how little wisdom is required to govern the world." Augustus Casar is to show the minimum of wisdom and knowledge required for an Embassador, and in this line he has never been surpassed, and after ages will scarcely see his equal again, for "there is but one Pierce, and Augustus Cæsar is his genuine, unadulterated Dodge "

GENERAL LAND OFFICE-TITLES TO GOV-ERBMENT LAND IN KANSAS AND NEBRASKA .--The question is frequently asked how titles can be acquired to the Government lands in Kansas and Nebraska Territories, and wheth er military bounty land warrants can be located in these Territories. We have ascertained that, except the lands reserved for the Indians under treaty stipulations, or to be sold for their benefit, or lands reserved for military reservations or other public uses, the whole country to which the Indian title has been extinguished is subject to settlement even prior to survey, and that pre-emptions will be allowed for claims predicated on such set. | April 12, 1835. in the old land States and Territories claims 8 HH DS N. PILE LINIMENT. Internal and External Piles.

Internal and External Piles.

THIS Limiment has been long used only as the privation of an eminent Physician. It has been used in this way more than eight years, during the whole of which time, although prescribed in a great number of cases, it has never, in any instance, been known to fail.

Many of the cases which have been effectually curred by this Limiment, have been of more than thirty years standing, causing great suffering and producing considerable ravage upon the system. These choosic cases have yielded as readily to the virtues of this remedy as those of more eccent date. Experience warrants the assertion, that there cannot be a case of Pilms, unconnected with other diseases, which will not be forced to yield before the wel-tested powers of this medicine.

Ten Year's Standing.

New York, Jan. 9th, 1848.

Dr. Halsey, Dear Sir.—Having taken your Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years; and having adhered closely to the directions which accompany the medicines, I have recovered my health not withstanding all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends spoke despairingly of my case, and tried to persuade me from making use of any acvertised remedies; and I doubt not, but what there are huncreds who are dissuaded from taking your excellent medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipted men, in flaming advertisements. But, what a pity it is, that the deception substituted in the properties of the deception and inefficiency of many advertised remedies put forth by unprincipted men, in flaming advertisements. But, what a pity it is, that the deception substitute of the deception was in the fine of the deception was an excellent remedies. Humanity speaking, they have saved my life, when I commenced making use of them, I was in a wretched condition, but began to Xuerimcetheir good effects in less than three days; and in six weeks from the time I purchased the medicines, to the great surprise of all my Iriends, I was entirely cured, and had increased fifteen pounds; in weight, having taken one box of the Pills, and two bottles of the Wine. Would to God that every poor suffer or would avail himself of the same remedies.
